

Connie Kyle CRB,CRS,GRI

Manager Perkins Road
C.J. BROWN REALTORS®

Real Estate has been my career since 1978 and I have had the privilege of managing the Perkins Office since 1987. I received my BS and MBA from the University of Arkansas in Fayetteville, Arkansas, and Baton Rouge has been my home since 1968. My office philosophy is to provide a work environment that allows agents and staff to achieve their personal goals. As a marketer and an educator, I provide direction, training and support to experienced and new agents and challenge them to achieve their potential and to be the best they can be. I am willing to work with agents to develop plans and systems that will get their career on the fast track or to take their career to the next level. You will find I have a passion for the industry and my company.

The atmosphere at the Perkins Road office encourages networking and team support. As a Manager, I have an open door policy and I work hand in hand with agents to bring a resolution to difficult situations. A top priority for the Perkins Road office is to follow the realtor Code of Ethics and to adhere to the rules and regulations of the Louisiana Real Estate Commission.

As a past President of the Greater Baton Rouge Board and the Louisiana Realtors State Association, I encourage agents to get involved and make a difference in their industry.

If you are a customer or client, you will find the Perkins Staff to be friendly and courteous. Our agents will work diligently for you to fulfill your real estate needs. We welcome the opportunity to work with you.

Our agent support and benefit package is tops in the city and the commission plan encourages all residential associates to strive for “above average” sales production and rewards them accordingly. If you are interested in a real estate career or are looking to change companies and would like to be a part of one of the most dynamic real estate teams in Louisiana, let me hear from you via phone (225) 769-1500, e-mail, ckyle@cjbrown.com or a personal visit. I would like to share my enthusiasm of real estate with you.
